12/1/68

Dear both,

I've answered all but a few of the accumulated letters, written some of those I should have following this last trip, have filed all the accumulation, and will not be able to do much on the notes before I leave for N.O. Wednesday with Vince, who catches the same plane in Dhila, and possibly Bud, who was up yesterday. I should be getting all this stuff in order but will tell you why must no drop everyting eng go there right now when I see you. I'll let you know from N.O. what my shhedule is. If I can leave on the 11th or the 18th can you connect with a plane I can go on in N.O., or would you like to spend a day there and we catch the 6:35 for Baltimore, which is the fastest on the schedule and will get us in my place by midnight?

I've begun Guh. It is at least as error-packed as the worst of Joesten. These foreigners just made it up as they went and Joesten still does, his manufactures sharpening as he gains experience at it.

Hope you 11/22/68 speech went well.

Vince and I will both probably be staying with Matt, whose new address is 1212 Pine, phone unchanged. He has a larger place and the same big heart, which just cannot get any larger.

Hurriedly,
